## KEEPING IT SIMPLE

Suzanne Smith, SKS PhotoShoot

"I pride myself in keeping my photography style simple, clean, and natural, with the spotlight on my subject, not excessive props or decorations. The same rings true for my packaging. When deciding on my digital media and print packaging, I wanted to make sure I stayed simple and fun. While reinforcing my logo, brand, and colors, I combined these elements in a simple, natural display. My clients love receiving this fun package in the mail, and they're pleasantly surprised with the extra goodies. It doesn't take a lot of money to make a big impact."

### THIN AND TWISTY

The **Wafer USB Card** is just 2.2mm thick and can be completely photo printed on both sides in full vibrant color. Try a **Trix Series flash drive** with twist-top to access the USB connector. Best of all, there's no lid to lose. **Flashbay**, Trix Series drives from \$8.44 per 1GB USB in orders of 25; Wafter Series drives from \$9.40 per 2GB USB in orders of 25, prices vary with market, [flashbay.com](http://flashbay.com)

### SOUTH PACIFIC SOURCE

Sustainably produced **Kava CD Folders** come in light and dark natural colors and are made from bamboo and handmade Abaca (banana) paper with bamboo spines. The paper is 100-percent tree-free, acid-free, and chlorine-free. Logo stamping is available on the CD pocket. **Rice Studio Supply**, \$1.99 or \$1.69 each for 100 or more, [ricestudiosupplies.com](http://ricestudiosupplies.com)

### SWEETEST TREAT

"When I first thought about what I wanted my logo and branding to represent, I selected a swirly frame and bright colors. I'm bubbly, so bright and bold showcase that. When I went to create my packaging I wanted to highlight my logo and brand, so I used pink and blue with silver and black as accent colors. My clients love opening their packages because they are both fun and funky."
